

REMARKS

A petition and fee for a three-month extension of time is being submitted herewith.

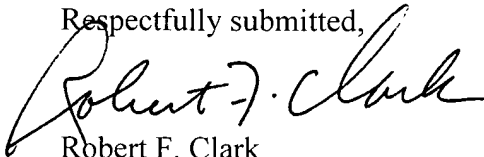

A Notice of Appeal is being submitted herewith.

Claims 1, 5 and 6 have been amended.

The Examiner in the Final Action mailed 6/7/2005 rejected the Applicants argument that the amendment of the transitional language from "comprising" to "consisting essentially of" excluded a co-catalyst as required by Savadago et al. In order to put the case in condition for allowance, the Applicants have now amended claims 1, 5 and 6 to recite the more restrictive "consists of" transitional language in order to make it clear that the claimed invention does not include a co-catalyst like Savadago et al.. Therefore, the Applicants respectfully assert that the Applicants' claimed invention is not anticipated by Savadago et al.

In view of the foregoing amendment, it is believed that the application is in condition for allowance. Such action is earnestly solicited.

Respectfully submitted,

Robert F. Clark
